EDUCATION

Lords Institute of Engineering and Technology

Hyderabad

Bachelor of Engineering in Information Technology

Completed in Jun 2024

TKR college of Engineering and Technology

Hyderabad

Diploma in Computer Science

Completed in Aug 2021

EXPERIENCE

Mern Stack Intern (6 months)

SyllogisticsAI

Nov-2023 to Present(Hyderabad)

- Completed an internship at SyllogisticsAI, where I gained hands-on experience in developing full-stack applications using the MERN stack.
- Worked on various projects, enhancing my skills in MongoDB, Express, React, and Node.js, and contributed to building scalable and efficient web applications.
- Collaborated with a team of developers, improving my ability to work in a team setting and follow best practices in software development.
- Implemented RESTful APIs and integrated third-party services, expanding my proficiency in backend development and API integrations within the MERN stack environment

PROJECTS

JobHunt | NodeJs, ReactJs, MongoDB, ExpressJS

- Developed a comprehensive job portal web application, featuring essential functionalities such as job and company browsing, filtering, pagination, and job application tracking for users.
- Implemented user authentication with JWT (JSON Web Tokens) and integrated Material UI and Bootstrap for responsive and visually appealing user interfaces, ensuring a seamless user experience.

Code For Digital India | NodeJs, ReactJs, MongoDB, ExpressJs ,Aws

<https://codefordigitalindia-syed.netlify.app/>

- Developed a comprehensive internship management platform using the MERN stack, with user and admin dashboards for efficient state management and internship status updates. Deployed on Render and Netlify, with AWS S3 for storage.
- Utilized Mantine.dev for seamless component library integration, enhancing UI/UX across the application.
- Implemented a user management system with AWS S3 and Nodemailer, supporting registration, login, account recovery, profile updates, resume uploads, OTP verification, and admin functionalities for profile review and task assignment.

Ecommerce website | NodeJs, ReactJs, MongoDB, ExpressJs

- Developed an e-commerce website using the MERN stack, incorporating features such as product listings, user authentication, and shopping cart functionality.
- Implemented comprehensive user management, product search, and order processing to ensure a seamless shopping experience.

TECHNICAL SKILLS
